

## Stichting Nederlandse Marokkaanse Vriendschap

### Yearly Report 2016

SNMV is for the third year in row active in making voluntary work the base of its activities.

We have worked in close collaboration with many friends, associations, foundations to try to stimulate voluntary work in Eindhoven and Helmond.

We try to cover with our projects and activities the following sustainable development goals 1, 2, 3, 4, 7, 8, 17.

All in all, we are growing in terms of projects that are in state of executions or even in state of planning, strategy and roadmap. We still focus on helping human being that is in inconvenient situation, with special focus on education of basic schools at villages. We keep trying to stimulate children in Morocco by providing support of basic needs, gifts, and with school's tools located in poor villages in Morocco.

## SUSTAINABLE DEVELOPMENT GOALS

We believe that we have been successful in achieving our goals in 2016, we were able to bring a smile to many humans, even sometimes with a symbolic support, or with a concrete project.

## Projects 2016

1. Support for orphans
2. Support for poor families and elderly people without fixed income
3. Support for education at rural areas
4. Support for handicapped
5. Support for special cases of persons in illness situation
6. Support with Ramadan Zakaat Elfitr for poors and needies
7. Support for re-build and reconstruction of houses for orphans families

The year 2016 was full of many activities and projects during the whole year. We were able to execute the following projects and achieved the best results in so short time.

### **1. Support for orphans**

Support orphans is one our main projects for every year. Also in 2016, we were able to provide monthly support for orphans. Our strategy in this project is to continuously look for goodwill persons that could support financially orphans by giving a regular monthly donation that will be used to support basic needs of orphans.

We do still have orphans in waiting list that we could not yet provide support.

In this project, SNMV executes this by means of:

- Give a monthly financial support to the orphan
- Guarantee the right housing
- Follow, control and give recommendation to the family for possible life improvements.

Figure 1 gives an example of list of orphans that we have supported in 2016, or they are in waiting list. The orphans live still still with the mother, so we take care only of maintenance cost for food, health and education.

*Figure 1: Example of list of orphans that SNMV supported in 2016 or are currently in waiting list, pictures have been manipulated for privacy reasons*

## 2. Support for poor families and elderly people without fixed income

SNMV started in 2016 to provide financial support to poor families and elderly people in inconvenient situation.

We do this by means of:

- Giving a monthly financial support to poor families/elderly
- Guarantee a suitable housing
- Provide a wheel chair to elders
- Provide food and basic needs to poor families.

We take care of bringing this in close collaboration with many associations that are active on many local regions.

In this project, we try to facilitate a life of poor families and elders by supporting them with financial means, and give them additional support depending on their needs, case by case.

Figure 2 and 3 show an example for food packet distribution.

*Figure 2: Distribution of food for poor families and elderly people*

*Figure 3: Example of food packet distributed to a poor family*

### 3. Support for education at rural areas

In the frame of supporting education at rural areas, we have supported children of three primary schools in the region beni yeznassen, Morocco, between Oujda-Nador.

All children of three schools received a packet of clothes and shoes and also basic needs for education.

*Figure 4: Example of a classroom that have been supported with clothes and school tools*

*Figure 5: Example 2 of beni yeznassen shool*

*Figure 6: Example 3 of beni yeznassen school*

*Figure 7: Example 4 of beni yeznassen school*

#### 4. Support for handicapped

We provided wheelchairs to handicapped in many regions in Morocco, and distributed them in close collaboration with many associations that are active in helping handicapped.

We covered also the transport of the wheelchairs from the Netherlands to Morocco, and also provided assistance in making use of it as it should be, this depends on the case of the handicapped.

Figure 8 and 9 give an example of wheelchairs that have been distributed for a school that has a special classroom for handicapped.

*Figure 8: Distribution of wheelchair to handicapped*

*Figure 9: Example of wheelchair given to handicapped children*

## **5. Support for special cases of persons in illness situation**

In 2016, we received many requests to support special cases of persons with illness. We tried to cover as much as we can depending on our budget and donation.

We have selected few cases that we could support by means of providing the financial needs to facilitate access to health.

This has been done by providing financial means for support to persons that in illness state, and also to poor families to get the basis needs for medication and health.

## **6. Support with Ramadan Zakaat Elfitr**

During the month of Ramadan, we collect donation for “zakat el fitr”, either from instution, associations or from persons.

The money that we collect for this goal has a condition to be distributed before end of Ramadan.

For this specific project, all what we collected for “Zakat El Fitr” is distributed before end of Ramadan to poor and needy families.

## **7. Re-build and reconstruction of house of orphans**

After control and evaluation of the 2015 financial aid that were provided for a family of four orphans, we concluded that a reconstruction of their house is a must to guarantee a safe and a descent house for the family.

We were able to improve the house condition and rebuild part of the house.

Figure 10 shows an example of house that has been rebuilt and improved.

## SNMV Organization

The management board of SNMV is a voluntary work.

### Management Board in the Netherlands:

Mohamed Azimane, Director

Mostafa Mhaouch, Secretary

EL Mostapha Lasfar, Treasurer

### Management Board in Morocco:

Imad Azimane

Fourqan Abakha

Khalid El Harrak

The management board in the Netherlands meets weekly basis, and discusses the state of the running projects and take decision depending on the circumstances, and define the action point accordingly, and communicate the planning of all projects to all board members.

## Financial

Project/Activity	Cost (Euros)
